

Arnav Singh

Student at Jacobs University Bremen

I am a quick learner, like being challenged and tackle problems thrown at me. I appreciate different perspectives and like working in groups, but can also work in an independent self-sustained environment. Currently looking for an internship (from June to August 2020) to gain professional work experience and become familiar with the working environment.

PERSONAL PROJECTS

Food App- Flutter ongoing

- Working on a shopping app where you can order food items and add it into your basket, the app will be extended for company Palma Imbiss Bremen. It will allow university students to order food directly without the hassle of ordering through a whatsapp group.
- User authentication login and http requests using Firebase
- Code will be uploaded on GitHub repo once completed.

Stammi by Leaf template (02/2020 – 03/2020)

- Made a frontend home page template for a startup Stammi. The startup is a platform to help retailers provide vouchers directly to their customers amid the Covid-19 crisis.
- Technologies used: HTML5, CSS3, Bootstrap4, JavascriptES6
- For more info in my Github under Webdev repo
